SUMMARY

Head of Administration with 3+ years of experience in educational administration, data management, reporting, and information systems. Experienced in managing, validating, and maintaining operational data, coordinating cross-functional reporting, and improving administrative workflows. Currently developing hands-on expertise in SQL, Excel, Python, data analysis, database management, and data visualization through self-directed learning and data projects. Seeking to transition into a Data Analyst role and apply strong data management, problem-solving, and analytical skills to support data-driven decision-making.

KEY SKILLS

Data Analysis : Data Entry, Data Cleaning, Data Management, Data Modelling, Data Interpretation
Data Warehousing: ETL, Data Warehouse, Dimensional Modeling, Star Schema, Fact & Dimension Tables
Data Visualization: Power BI, Tableau.
Programming & Databases: SQL, Python, Javascript, PHP.
Administration & Operations: Administrative Management, Documentation Control, Reporting Systems
Teaching And Facilitation : Curriculum Delivery, Student Assessment, Learning Evaluation
Communication: Cross-Functional Collaboration, Stakeholder Coordination, Problem Solving

WORK EXPERIENCE

SMP GLOBAL CHANDRA BAGA - 4 YEARS

Bekasi

Head Of Administration

July 2023 - Present

- Led administrative operations for 250+ students and staff, ensuring 100% on-time completion of academic and administrative processes
- Standardized documentation workflows, reducing administrative errors and data inconsistencies by approximately 20–30%
- Accelerated report preparation time by streamlining coordination across departments, cutting delays in academic reporting cycles
- Analyzed academic and administrative datasets to identify data discrepancies and support faster, data-driven decision-making.
- Collaborated with teachers, management, and administrative teams to ensure accurate data flow and effective implementation of school information systems.
- Manage student, employee, financial, correspondence, asset, and school documentation, maintaining accurate and well-organized records across administrative functions

Informatics Teacher

July 2022 - Present

- Delivered informatics lessons to 250+ students, improving understanding of digital literacy, basic data concepts, and problem-solving skills
- Designed lesson plans and assessments, resulting in more structured learning and measurable student progress across each term
- Managed and assessed student assignments and exams, ensuring timely feedback and continuous improvement in student performance

IT & Systems Administrator

July 2022 - Present

- Developed and managed digital systems for student data, attendance, and academic records, reducing manual administrative work by ±40%
- Supported teachers in adopting digital tools (LMS, online platforms), increasing efficiency in teaching and classroom management
- Improved data management practices, resulting in more consistent and centralized data across departments

SMK Global Surya Mandiri – 1 Years

Bekasi

Computer Science Teacher

July 2024 – June 2025

- Deliver lessons on programming, algorithms, computational thinking, databases, and digital technology.
- Guided students in using various digital tools and applications to support learning, productivity, and effective problem-solving.
- Continuously improve teaching methods and learning materials to create an effective and engaging learning environment.

FRELANCE – 2 YEARS

BEKASI

Web Developer

2023 - 2025

- Developed responsive landing pages using HTML, CSS, and JavaScript, ensuring consistent performance across desktop and mobile devices
- Improved page structure and front-end performance, resulting in faster load times and better user experience
- Optimized website structure and front-end performance, reducing page load time by approximately 20–30%.

EDUCATION

University Of Indraprasta PGRI
Bachelor Of Informatics Engineering (GPA : 3.45)

Jakarta, Indonesia
2022 - 2026

CERTIFICATION

- *Google Data Analytics Professional Certificate* – **Coursera**
- *Intro To Data Engineering* – **365 Careers**
- *Coding Dan Kecerdasan Artifisial* – **Coding Studio and Kodiokids**
- *Junior Web Developer* – **Badan Nasional Sertifikasi Profesi (BNSP)**
- *Junior Graphic Designer* – **Badan Nasional Sertifikasi Profesi (BNSP)**
- *Diklat Pembelajaran Mendalam/Deep Learning* – **Balai Besar Guru dan Tenaga Kependidikan (BBGTK)**
